A man with dark hair and glasses is shown in profile, holding a large, multi-layered burger up to his face. The burger is filled with lettuce, tomato, onion, cheese, and a fried patty. The scene is set in a restaurant or kitchen, with a counter and shelves visible in the background. The lighting is warm and focused on the man and the burger.

What is a wall mural?

Murals are most commonly thought to be an image painted on a wall surface. But rather than hiring an artist to paint a mural, which can be timely and very expensive, we're able to digitally print images onto a wall covering material and you simply adhere it to the wall. We have access to thousands of licensed images to choose from or you can send us your own image or artwork and we can create the mural that fits your office or room. These aren't like the murals from the 70's (although we have some of those too.) Wall murals are becoming a popular trend in décor, to make a space individually yours, with your own twist, a logo or company slogan.

***Go on ditch that plain old magnolia wall,
spice it up a bit, for that wow factor!***

About Us

Colornet is one of the leading source for designers when choosing wall murals. We've helped everyone from companies, hospitality and healthcare organisations, restaurants, and retail stores establish a new identity through their wall décor. We are proud to offer the largest selection of high quality custom murals anywhere. We have quick turnaround times , our murals are long lasting, and depending on the material you choose can last up to 8 years. Murals make a huge impact in all types of settings. Take your design vision even further!

Huge selection:

- * We have access to millions of images from world-famous artists and photographers to choose from
- * Available in custom sizes to match any size you need
- * We can make a mural from your own images. We accept these types of files: .jpg, .tif, .png, .psd, .eps, .ai, and pdf.

Exceptional quality:

- * Three material options for murals: fabric-backed vinyl, artist quality canvas and repositionable wall covering
- * Vinyl murals are fire rated and perfect for high traffic areas. A great choice for offices, cafeterias, hospitals
- * Canvas murals offer a museum-quality look, great for high-end restaurants, retail stores, boardrooms
- * Peel n' stick murals are a great option for more temporary scenarios such as tradeshow and retail promotions
